Our people are gradually dropping in, after spending the summer at the mountains or on the seashore. Some are looking better as a result of the change—but they generally find those who staid at home in good shape, too.

J. E. Rich, of DeLeon Springs, spent Thursday night in the city, en route from the Horse Traders' Convention which was held in Leesburg on the 27th and 28th of August. Mr. Rich reports a good time and many "swaps." The committee offered a prize of \$50.00 for the man making the most trades.

I. W. Whitcomb has invented a flying machine that he has now got so it will raise itself off the floor. He says it is entirely different than any other of the breeds now on the market or in the air. Mr. Whitcomb thinks he has struck the right idea, and will follow it up if he can command the necessary capital.

There is as good fishing in the lakes around DeLand as can be found anywhere in a civilized and settled community. It is an easy matter to go out nearly any afternoon and catch a supper or a breakfast of bream or bass. Some very fine bass, weighing as much as ten or twelve pounds, have been caught out of these little lakes covering only a few acres.

Mr. J. T. Cairns expects to go to Charleston, S. C. this week, to meet Mr. M. H. Hubbard, of New York, the noted church architect, with whose firm Mr. Cairns and Mr. Fitchner have become identified. Mr. Fitchner will probably be stationed at Atlanta, from which central point Mr. Cairns will radiate. He will retain his business in DeLand, making frequent trips here to look after his contracts.

"Hayco," the Boer, called the "hand-cuff king," gave three exhibitions Monday, Tuesday and Wednesday nights at the Gem Electric Theatre. His work of getting out of hand-cuffs and out of the straight-jacket, were expert and well done. He announced that on Wednesday night he would get out of a paper bag without injuring the bag. The bag was prepared and a big audience was present. When Hayco got into the bag, there was some trouble about the tying of the bag, between his lad helper, himself and the committee, as a result of which he got out of the bag, lost his temper and angered the audience, which hissed him and left the room in a body. The young man is quite an expert in his line, but has a rather short temper, owing, possibly, to his unfamiliarity with the English language. Until Wednesday night his exhibitions had given satisfaction, and he was a drawing card. Miss Bennett offered to refund the admission to anyone who demanded it, but only one admission was taken in this way. The young man greatly regretted his haste, when it was too late, and the audience had gone. He stated that this was the first time he had ever been hissed by an audience, and it broke him up badly.
